

# San Carlos Borremo de Carmelo

By: Seth

The mission San Carlos Borremo de Carmelo was the second of 21 missions in California. It was founded on June 3, 1770 by Father Junipero Serra. It is located at 3080 Rio Rd., Carmel. It was founded because Father Serra could grow the plants with the Carmel River which was very close to the mission. An interesting fact about this mission is that it was Father Serra's favorite mission. Another interesting fact about the mission is that it was destroyed twice. One more fact is that it had the biggest courtyard of all the missions.
