

San Francisco Solano

by Lesly

The name of this mission is San Francisco Solano. This mission was found on July 4, 1823. San Francisco Solano is the 21st mission which is the very last mission. The father who found this mission was Father Jose Altimira. This mission is located on 20 E. Spain Street in Sonoma. This mission was founded because they wanted the climate to be warmer to build missions. Also, in which he claimed the land in the name of the Spanish King. They wanted to take a lot of land. It was built in 1846. An interesting fact is it was washed away by a tremendous thunderstorm. Also, it was the last mission in Alta California.
