

San Antonio de Padua
By Monserrat P.R.

My mission is San Antonio de Padua. It was founded on July 14 1771. This is the third out of twenty one. The mission was founded by Father Junipero Serra. It was located 40 miles north of Paso Robles Mission Creek Rd. It was founded because its a day's walk from the next mission. One interesting comment about it is it was known as the "Miracle Worker". Another interesting fact is that Mission San Antonio de Padua sits in the middle of the Fort. Another interesting fact is that the indian name was Teshhaya or Sextapay. So, that is my mission San Antonio de Padua.
