

Mission San Francisco de Asis

by Reagan M.

The mission San Francisco de Asis was founded June 29, in 1776. The mission is the 6th mission founded by Padre Francisco Palou and Padre Benticio Cambon. It is located in the San Francisco Mission District on the corner of 16th and Dolores Streets. This mission-along with the other missions-were founded because they were only a day's walk away from each other. Also, this mission was founded because the Spanish wanted colonization. Some other interesting facts about this mission and other missions are: some missions are not used anymore, another fact is that some missions are torn up and demolished by earthquakes.
