

San Rafael Arcangel

by Gisela

The mission San Rafael Arcangel was founded in December 1817. This mission is the 20th mission that was discovered. This mission was founded 20 miles north of San Francisco at the foot of Mount Tamalis. It was located in San Rafael, CA on 5 Ave. This mission was located because Spain wanted to take over their homes. An interesting thing is that the other missions soon began sending their sick indians.
